Dear Colleague

Re: Care of the Critically Ill Surgical Patients (CCrISP®)

I am delighted to invite you to the CCrISP® course which is being held in Gateshead on the 16-17 May 2019. This is a two day interactive course held in conjunction with the Royal College of Surgeons that will focus on developing the practical, theoretical and personal skills necessary for the care of the critically ill surgical patients.

This course will be run by a Faculty experienced in looking after high-risk surgical patients, teaching and training. It is designed to be interactive with small group sessions, with practice clinical scenarios and data interpretation, as well as practical skills acquisitions. There will be 10 Faculty with a maximum of 16 Candidates.

This is an intensive but thoroughly enjoyable course that has run with great success for several years now. We hope that you will be able to join us at the Northern Gynaecological Oncology Centre based in Gateshead and we look forward to welcoming you here. Full details and an application form are available in the attached flyer and on the Royal College of Surgeons website (www.rcseng.ac.uk).

Yours sincerely

Miss C Ang

Course Director and Consultant Gynaecological Oncologist
