Cadaveric Workshop for Basic and Ultra radical surgical procedures in Gynaecology

27 & 28 November 2018

This course offers delegates the opportunity to enhance their surgical skills on cadaveric models, under the guidance of an experienced faculty. The participants will be able to gain an in depth understanding of pelvic anatomy and perform various basic and ultra-radical gynaecological procedures

Venue

Post graduate Centre, Nottingham City Hospital, Nottingham

Contact

Sarah Hutton Tel: 0115 993 4905

Email: sarah.hutton@nuh.nhs.uk

Course Organisers
Viren Asher and Anish Bali
Royal Derby Hospital

At the end of this course the candidates

- ❖ Understand the anatomical planes in female pelvis and perform the steps involved in dissection of the pelvic sidewall structures.
- ❖ Gain experience in vaginoscopic approach to hysteroscopy and learn hysteroscopic resection
- ❖ Systematically assess the upper abdomen and perform pelvic and para aortic LN dissection
- ❖ Understand and perform the various procedures carried out in Ultra-radical surgery for advanced ovarian cancer.

The course will be beneficial to the following audience

- ❖ All Obstetric and Gynaecology trainees (ST1-7)
- ❖ Gynae oncology subspeciality trainees and trainees doing the gynae oncology ATSM
- ❖ Senior trainees who are doing their ATSM in Gynaecological oncology.
- ❖ Consultant Gynaecologists and Gynae oncologists who would like to refresh their anatomical knowledge and learn new skills in surgical dissection of female pelvis and abdomen

Programme

27th November 2018 (Basic gynaecology procedures)

- ❖ Diagnostic hysteroscopy with vaginoscopic approach and operative hysteroscopic procedures
- ❖ Urogynaecology procedures
- ❖ Opening and assessment of abdominal cavity
- ❖ Anatomy and dissection of pelvic side wall and ureter
- ❖ Steps of abdominal hysterectomy

28th November 2018 (Ultra radical procedures)

- ❖ Pelvic and para aortic LN dissection
- ❖ Omentectomy and splenectomy
- ❖ Liver Mobilisation and Diaphragm peritoneal stripping
- ❖ Techniques of Bowel resection and anastomosis
